

Sharing a Shell

Shells and Stars Game

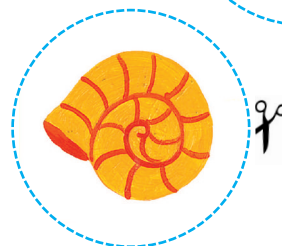

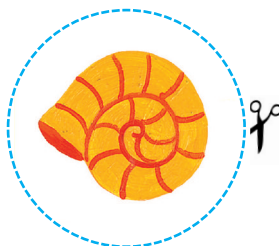

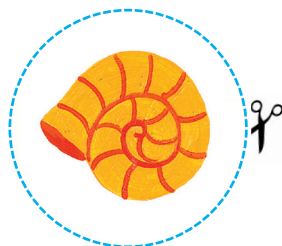

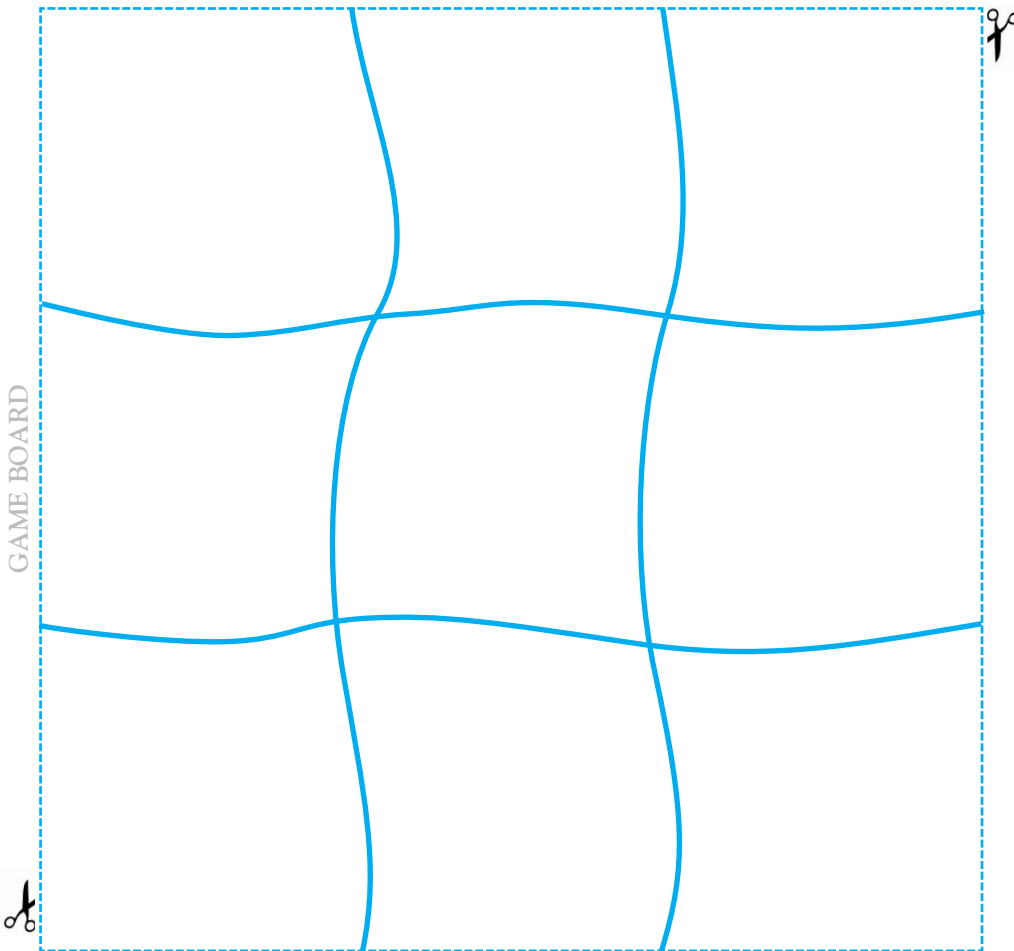

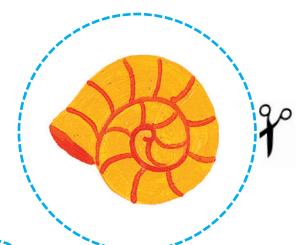

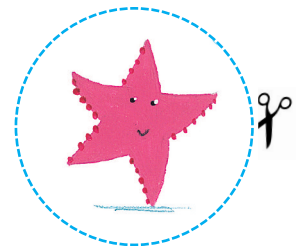

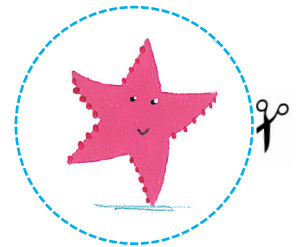

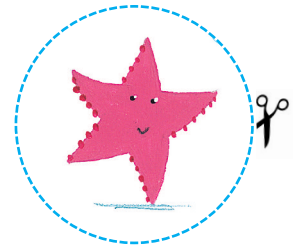

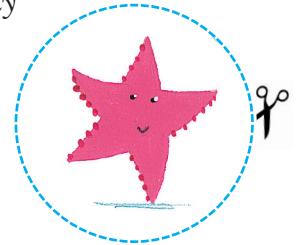

This is Crab, Blob and Bush's favourite game to play, and now you can play too! First you will need to make your Shells and Stars game. Glue this page to a thin peice of card and your game will be stronger and last longer. With the help of an adult, carefully cut out the game board and the shell and star discs along the dotted lines.

Now you need to learn the rules!

- 1 One player has the star discs, the other the crabs.
- 2 You must take it in turns to place your crab or star on a square of the grid.
- 3 The first player to line up three stars or crabs in a row is the winner.

Good luck!
